Kohlberg's Stages of Moral Development

Part A.

Read and study the stages of moral development as described by Lawrence Kohlberg.

Stage 1—Preconventional

Moral decisions are based on the consequences of the action. "Will I be punished?"

Stage 2—Preconventional

Moral decisions are decided on the benefits derived from the action. "Will I get what I want?" In this stage, decisions are also made on the principle of reciprocity. "Does the victim deserve it?"

Stage 3—Conventional

Moral decisions are determined by evaluating the action in terms of love and approval of family and friends. "Will my family or friends get mad at me?"

Stage 4—Conventional

Moral decisions are based on the precepts of law and/or religion. "Is it right according to the law?"

Stage 5—Postconventional

Moral decisions are based on fairness, justice, and truth. Oftentimes, civil law is superseded by a higher moral law as determined by conscience. "Is there a higher good that can come from the action I do?"

Part B.

For each situation, decide in which stage of Kohlberg's theory the person is responding. On a different piece of paper, write the stage and the reason for your response. Be prepared to explain your rationale for choosing a particular stage.

This girl has copied from Tamara on occasion. Tamara decides to look at the other girl's test for the questions she doesn't know. Besides, she thinks Tamara, 'I never should have five tests in one day anyway.'
2. Scott thought about leaving school early and going to a baseball game. He stayed in school because he was afraid of getting caught.
